United States Integrated Ocean Observing System Advisory Committee; Member Solicitation

AGENCY: National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of Member Solicitation for the United States Integrated Ocean Observing System Advisory Committee.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA) is soliciting applications for membership on the United States Integrated Ocean Observing System Advisory Committee (the Committee), a Federal advisory committee. The Integrated Coastal and Ocean Observation System (ICOOS) Act of 2009 establishes a national integrated System of ocean, coastal, and Great Lakes observing systems, comprised of Federal and non-Federal components including in situ, remote, and other coastal and ocean observation, technologies, and data management and communication systems. The System is designed to address regional and national needs for ocean information; to gather specific data on key coastal, ocean, and Great Lakes variables; and to ensure timely and sustained dissemination and availability of these data to support a variety of societal benefits. These benefits include supporting national defense;

marine commerce; navigation safety; weather, climate, and marine forecasting; energy siting and production; economic development; ecosystem-based management of marine and coastal areas; conservation of ocean and coastal resources; and public safety. The System is also designed to promote research to develop, test, and deploy innovations and improvements in coastal and ocean observation technologies and modeling systems.

The ICOOS Act also requires the Under Secretary of Commerce for Oceans and Atmosphere to establish a System advisory committee to provide advice to the Under Secretary and to the Interagency Ocean Observation Committee, which is responsible for planning for the integrated design, operation, maintenance, enhancement, and expansion of the System.

NOAA will hereby accept applications for membership on the Committee through [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]. The ICOOS Act of 2009 states: “Members shall be qualified by education, training, and experience to evaluate scientific and technical information related to the design, operation, maintenance, or use of the [Integrated Ocean Observing] System, or use of data products provided through the System.” NOAA encourages individuals with expertise in oceanographic data, products, and services; coastal management; fisheries management; coastal and marine spatial planning; geodesy; water levels; and other science-related fields to submit applications for Committee membership. To apply for membership on the Committee, applicants should submit a resume as indicated in the ADDRESSES section. NOAA is an equal-opportunity employer.

The Committee's voting members will be appointed by the Under Secretary of Commerce for Oceans and Atmosphere. Members shall be qualified by education, training, and experience to evaluate scientific and technical information related to the design, operation, maintenance, or use of the System, or the use of data products provided through the System.
